Description / Ref

Hagglunds Bv206 Soft Top (Cargo) - 50409

Photo (a gallery of photos is provided below - *where available*)

Details

We have 75 to 100 units of the petrol engine (only) soft top variant Hagglunds BV206 available.

We are currently offering these vehicles in as is condition with a workshop check at a reduced price making it the ideal opportunity for a fleet order or individual purchase.

The units come with a steel rear body which was used as an ammunition locker but has been used by customers as a water or fuel tank by sealing up the side locker doors to make it water tight.

These extreme vehicles are capable of travelling on roads at speeds of up to 55km/h.

Also capable of negotiating up to 60% gradients, and they have less ground pressure than half a man's footprint.

These are the ultimate ATV.

The vehicles are offered as is and as shown in the first few gallery photos or they can be upgraded to include:

- Being fitted with new tracks, sprockets and road wheels
- Fresh paint (options of paint finish)
- New canopy
- Rear body change as Personnel or Cargo or other (Requires fuel tank modification)
- Seating Upgrade
- Winch

This version of the BV206 is great fun in Summer when you can remove the canopy and lower the roll cage (if safe to operate in that configuration) to give you that open top wind in the hair experience.

Videos (if available)
